WHO ARE WE

Yıldız Yıldız Technical Univ. Cengiz EMANET, who started working in the Te-ba group of companies as soon as he graduated from the Mechanical Department of the Faculty of Engineering in 1986, continued to work in important positions in different companies and delivered many projects. and founded the Trade Limited Company. At the beginning of 2018, it started to engage in electrical installation activities as well as mechanical installation.

Cengiz Mekanik provides project and contracting services for plumbing, heating, natural gas, cooling, ventilation, fire and electrical installations.

All our work in our fields of activity is based on the principle of producing economical budget solutions with the right material selection in accordance with standards and techniques.

In the light of more than 35 years of knowledge and experience, the main aim of our company is to produce solutions in mechanical and electrical installation engineering in accordance with valid national and international specifications.

OUR MISSION

Cengiz Mekanik, It has adopted the principle of providing quality service with experience and superior technology in mechanical and electrical installation project contracting and consultancy.

- Take on as much work as you can control.
- Take care of your business.
- Never keep other units waiting.
- Do your job with pleasure and deliver on time.
- Let your completed work be a reference, not a problem.

OUR GOALS

Cengiz Mekanik, has reached today's quality by constantly improving itself in software, hardware and technical fields with its experienced and expert staff. However, he does not see this as sufficient and continues to improve himself.

As the main principle in the projects it designs, it prefers systems with high technology, low initial investment costs, and low operating and maintenance costs. **Cengiz Mekanik**'s mission in the sector is to always provide economical, reliable, modern, fastest and best service.

ECONOMIC SOLUTIONS

With our 35 years of experience, we offer the most useful, most reliable and most economical solutions to our customers, whom we accept as our business partners, in our projects and applications.

QUALITY WORK

The applications of our project team, each of whom is specialized in their field, have highlighted our quality with their functional efficiency, ergonomic use and visual appeal.

EARLY DELIVERY

Thanks to our planned, devoted, meticulous and rapid work without compromising our quality, we always deliver our work early without keeping other units in the project waiting.

HAPPY CUSTOMERS

Our works, which we delivered without any problems at the end of the foreseen cost, quality and time, and by providing the necessary operational training, satisfied first our customers and then us.
